TED Awareness program at Deshapran & Sankarpur

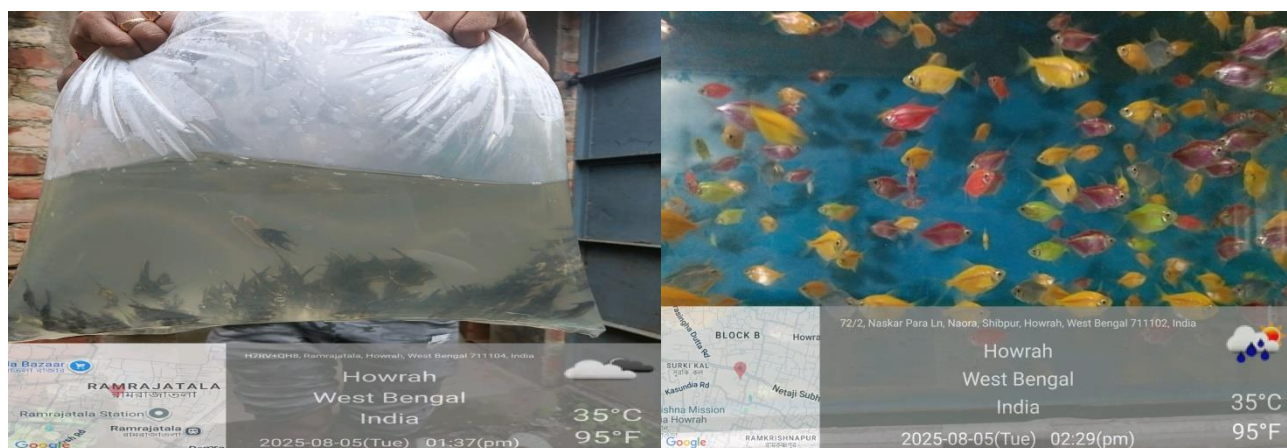

Capacity building training program for SC fishers at Jettyghatt & Haripur, South 24 Parganas

To promote the use of square mesh cod ends in trawl gear, MPEDA-NETFISH in collaboration with Digha Fishermen and Fish Traders Association (DFFTA) had organized a two-day hands-on training program on fabrication and fixing of square mesh cod end on 8th and 9th August 2025. The training was attended by about 85 participants including boat owners, skippers, net menders, and HDCs. State coordinators

from West Bengal & Odisha along with two master trainers (net menders) from Paradeep FH, Odisha had given practical guidance on converting diamond mesh to square mesh and emphasized its benefits for marine conservation, by catch reduction, and compliance with export regulations (including TED implementation). The training was supported by M/s. Tufrope Ltd., which supplied the square mesh nets for the program. All the participants expressed their confidence and willingness in implementing the square mesh cod ends, and DFFTA agreed that adoption of square mesh cod ends in trawl gears would start from 15th September 2025.
